AGENDA ITEM NO.: 10 (Action Item – Public Hearing)

PLANNING COMMISSION MEETING DATE: February 27, 2019

SUBJECT: Conditional Use Permit (CUP) 2019-01/Shade Grown Farms

EXECUTIVE SUMMARY

The applicant has applied for a CUP to operate a commercial cannabis cultivation operation located at 140 Agate Street in the community of Stewart Valley. The applicant has been approved by the Board of Supervisors for a Cannabis Cultivation, under 5,000-square-foot Business License (Attached).

PROJECT INFORMATION.

Supervisory District: 5

Project Applicant: Shade Grown Farms LLC

Property Owner: Lowell Shade

Site Address/ 140 Agate Street, Stewart Valley, CA

Community: Stewart Valley

A.P.N.: 048-540-08

General Plan: Residential Estate (RE)

Zoning: Rural Residential with a 5-acre minimum (RR-5)

Size of Parcel: Approximately 5-acres

Surrounding Land Use:

Location:	Use:	Gen. Plan Designation	Zoning
Site	Residential and horse stables/arena/greenhouses	Residential Estate (RE)	Rural Residential with a 5-acre minimum (RR-5)
North	Vacant	N/A State of Nevada	N/A State of Nevada
East	Vacant	N/A State of Nevada	N/A State of Nevada
South	Vacant	Residential Estate (RE)	Rural Residential with a 5-acre minimum (RR-5)
West	Vacant	Residential Estate (RE)	Rural Residential with a 5-acre minimum (RR-5)

Staff Recommended Action: **1.) Approve the Conditional Use Permit (CUP) 2019-01/Shade Grown Farms with the Findings and Conditions as provided in the staff report and Certify it is exempt under CEQA.**

Alternatives:

- 1.) Deny the CUP.
- 2.) Approve the CUP with additional Conditions of Approval.
- 3.) Continue the public hearing to a future date, and provide specific direction to staff regarding what additional information and analysis is needed.

Project Planner: Cathreen Richards

STAFF ANALYSIS

Background and Overview

The applicant applied for a CUP to operate a commercial cannabis cultivation operation, located at 140 Agate Drive in the community of Stewart Valley. This establishment will grow cannabis plants of a variety of strains. The mature plants will also be dried, cured, trimmed and packaged at the project site. The property is zoned RR-5.0 which allows for commercial cannabis cultivation with a CUP. The surrounding area is vacant and zoned RR, with the exception of north and east, which is located in the State of Nevada, but is also vacant. The proposed location is not within 600-feet of a school, daycare, park or library; and therefore, is not prohibited by state or county exclusion areas.

The property proposed for Shade Grown Farms was previously used as rodeo grounds. It is developed and highly disturbed. There is a single-family home where the owner/grower will reside. Currently there are 6 greenhouses located on the property. Three of these greenhouses are proposed to be updated, improved for cannabis cultivation, and permitted through the County Building and Safety Department. Each is approximately 3,000-square-feet and can accommodate about 3,000 plants.

The applicant states that the proposed cultivation operation will require 1,000-1,500 gallons of water per week, through metered drip lines. This amount of water use is minimal and is similar to what a second residential dwelling (accessory dwelling unit)

would use, which is a principle permitted use in the RR zone. The average California household water use is 85-gallons per person. Even a small household of 2-people would use a comparable amount - close to 1,200-gallons per week.

Transport of the packaged product will happen at the end of the harvest season. A transportation company will pick up product from the site. The applicant estimates that at first there will be a weekly pickup and they could have up to approximately 2 to 3 pickups per week as the business grows. This amount of additional traffic on Ash Meadows Road is minimal.

The applicant is currently working with the Environmental Health Department to address water, septic, public restrooms and pesticide and fertilizer use, storage and disposal. The project will be conditioned on the completion of these issues to the satisfaction of the Environmental Health Department.

Site Location Map

Pictures of the Project Property

General Plan Consistency

The goal of this project is to allow for a commercial cannabis cultivation operation. The project is consistent with the General Plan designation of RE as it applies to areas with large lot residential development, in rural areas where the open characteristics of the area are maintained. The RE General Plan designation is compatible with the existing RR zoning designation. It is also compatible with the General Plan's Conservation and Open Space Element's Goal Agriculture (AG) 1.0: Provide and maintain a viable and diverse agriculture industry in Inyo County. The applicant is proposing to grow cannabis to sell. This activity is consistent with Goal AG 1.0 as it provides for a more diverse agriculture industry than is currently present in the County.

Zoning Ordinance Consistency

The RR zoning designation allows for agriculture uses along with residential. Commercial cannabis cultivation is also allowed in the RR zone with a Conditional Use Permit on lots greater than 2.5-acres in Stewart Valley. The applicant has applied for the conditional use permit to operate Shade Grown Farms in compliance with the County's zoning ordinance.

ENVIRONMENTAL REVIEW

Pursuant to the California Environmental Quality Act (CEQA), the proposal is covered by the General Rule 15061(b) (3) that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. This application for a CUP is for a property that is already developed, denuded of vegetation and is highly disturbed; the proposed activities will result in no change to the impact of uses than are possible without the CUP or currently or historically conducted on the property; and, Pursuant to the California Environmental Quality Act (CEQA), potential, subsequent, development to this proposal falls into the Categorical Exemption Class 3 New Construction or Conversion of Small Structures (15303)(a) One single-family residence, or a second dwelling unit in a residential zone. . . . may be constructed or converted under this exemption.

NOTICING & REVIEW

The application for CUP 2019-01/Shade Grown Farms has been reviewed by the appropriate county departments and no issues were reported, other than those being addressed by the applicant with the Environmental Health Department. For a conditional use permit to be approved by the Planning Commission, a Cannabis Business License must be approved prior. Shade Grown Farms was approved for a business license by the Board of Supervisors on December 18, 2018 after a thorough review and scoring by the Commercial Cannabis Permitting Office. This included reviews by the Environmental Health and Sheriff's departments.

CUP 2019-01/Shade Grown Farms was noticed on February 16, 2019 in the Inyo Register and mailed to property owners within 1,500-feet of the project location as required by Inyo County Code 18.78.360(F). No comments have been received by staff to date.

RECOMMENDATION

Planning Department staff recommends the approval of CUP 2019-01/Shade Grown Farms with the following Findings and Conditions of Approval:

FINDINGS

1. The proposed Conditional Use Permit is Exempt by the General Rule 15061(b)(3) and the provisions of the California Environmental Quality Act have been satisfied.

[Evidence: The General Rule 15061(b) (3) states that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. This application for a CUP is for a property that is already developed, denuded of vegetation and is highly disturbed; the proposed activities will result in no change to the impact of uses than are possible without the CUP; or of currently or historically conducted uses and activities on the property; and, Pursuant to the California Environmental Quality Act (CEQA), potential, subsequent, development to this proposal falls into the Categorical Exemption Class 3 New Construction or Conversion of Small Structures (15303)(a) One single-family residence, or a second dwelling unit in a residential zone. . . . may be constructed or converted under this exemption.]

2. The proposed Conditional Use Permit is consistent with the Inyo County General Plan Land Use designation of Retail Commercial (RC).

[Evidence: The goal of this project is to allow for a commercial cannabis cultivation operation under 5,000-square-foot retail establishment on a parcel of land with a RE General Plan designation. The project is consistent with the General Plan designation of RE as it applies to areas with large lot residential development, in rural areas where the open characteristic of the area are maintained. The RE General Plan designation is compatible with the existing RR zoning designation that is found on the property. It is also compatible with the General Plan's Conservation and Open Space Element's Goal - Agriculture (AG) 1.0 that states: Provide and maintain a viable and diverse agriculture industry in Inyo County. The applicant is proposing to grow cannabis to sell. This activity is consistent with Goal AG 1.0 as it provides for a more diverse agriculture industry than is currently present in the County. Due to these factors, the project is consistent with goals, policies and objectives of the County's General Plan.]

3. The proposed Conditional Use Permit is consistent with the Inyo County Zoning Ordinance, which permits "commercial cannabis cultivation activities" as a conditional use in the RR zone.

[Evidence: The Rural Residential (RR) zoning designation allows for agriculture along with residential as principle permitted uses and also allows for commercial cannabis cultivation with a Conditional Use Permit on lots greater than 2.5-acres in Stewart Valley. The applicant has applied for the conditional use permit to operate Shade Grown Farms in compliance with the County's zoning ordinance.]

and upon approval of the CUP will be consistent with the County's Zoning Ordinance.]

4. The proposed Conditional Use Permit is necessary or desirable.
[Evidence: The General Plan's Conservation and Open Space Element's Goal Agriculture (AG) 1.0 states: Provide and maintain a viable and diverse agriculture industry in Inyo County. The applicant is proposing to grow cannabis to sell. This activity is consistent with Goal AG 1.0 as it provides for a more diverse agriculture industry than is currently present in the County, which is desirable as evidenced by the County's General Plan.]
5. The proposed Conditional Use Permit is properly related to other uses and transportation and service facilities in the vicinity.
[Evidence: The proposed conditional use permit is for a commercial cannabis cultivation establishment to operate in a rural area on a location that is already developed and highly disturbed. It is related to rural, agriculture and open space nature of the area and will not cause impacts on transportation or service facilities in the vicinity as these facilities are already located on and provide access to the property.]
6. The proposed Conditional Use Permit would not, under all the circumstances of this case, affect adversely the health or safety of persons living or working in the vicinity or be materially detrimental to the public welfare.
[Evidence: The proposed conditional use permit is for a commercial cannabis cultivation establishment to operate in a rural area on a location that is already developed and highly disturbed. This establishment will not change or increase the current level or general type of allowed uses in the vicinity, which is very rural and remote. The proposed security plan for Shade Grown Farms was reviewed by the Sheriff's Department as a business license requirement; therefore, CUP 2019-01/Shade Grown Farms will not create impacts on the health or safety of persons living or working in the vicinity or be materially detrimental to the public welfare.]
7. Operating requirements necessitate the Conditional Use Permit for the site.
[Evidence: A commercial cannabis cultivation operation in the RR zone requires a conditional use permit per Inyo County Code Section 18.21.040(I) and is therefore necessary for the operation of Shade Grown Farms.]

CONDITIONS OF APPROVAL

1. The applicant shall provide adequate water and septic systems, public restrooms, and a plan for pesticide and fertilizer use, storage and removal to the satisfaction of the Inyo County Environmental Health Department prior to any Building Permits being granted. Failure to provide shall also cause revocation of CUP 2019-01/Shade Grown Farms.

2. Hold Harmless

The applicant/developer shall defend, indemnify and hold harmless Inyo County agents, officers, and employees from any claim, action or proceeding against the County or its agents, officers, or employees to attack, set aside, void or annul an approval of the county, its advisory agencies, its appeals board, or legislative body concerning Conditional Use Permit No. CUP 2019-01/Shade Grown Farms. The County reserves the right to prepare its own defense.

3. Compliance with County Code

The applicant/developer shall conform to all applicable provisions of Inyo County Code and State regulations. If the use provided by this conditional use permit is not established within one year of the approval date it will become void.

THIS LICENSE IS NON-TRANSFERRABLE AND SUBJECT TO ANY CONDITIONS LISTED BELOW.

POST IN A CONSPICUOUS LOCATION IN PUBLIC VIEW.

LICENSE CONDITIONS

1. This license is not valid unless the applicant is current on all Inyo County fees and taxes, and compliant with all county regulations.
2. Applicant must obtain all applicable permits required by Inyo County and/or State of California and present these to the Inyo County Commercial Cannabis Permit Office within six months of the license issuance date.
3. This license shall be void if applicable state licenses/permits and local land use approvals are not presented to the Inyo County Commercial Cannabis Permit Office within six months of license issuance, unless an extension has been granted to the license holder by the Inyo County Commercial Cannabis Permit Office or Inyo County Board of Supervisors pursuant to Inyo County Code section 5.40.090(J).
4. Licenses must be displayed in a conspicuous place at all times at the business location. If the business has no fixed location, this license shall be carried at all times during any actions related to the conduct of carrying on the licensed commercial cannabis activity, and shall exhibit it, whenever requested, to any person. When a licensed commercial cannabis retail business with a fixed location is conducting deliveries, a copy of this license shall be carried by the delivery person at all times, and the delivery person shall exhibit it, whenever requested, to any person.
5. This license is non-transferrable or removable to another location, operator, person, or identity. This includes, but is not limited to, the change in corporate control of a Licensee as set forth in the California Revenue and Taxation Code Division 1 Part 0.5 Chapter 2, as may be amended.
